

This half term we will be covering -

Maths

NB- Children work at different levels in maths, according to their ability, and some may be doing work that is easier or harder than what is described here.

- Count, read, write numbers to 100 and over.
- Count on **and back** from any number up to 100 in ones.
- Identify 1 more and 1 less than a given number.
- Learn and practise number bonds to **10** and then 20.
- To use money in everyday situations.
- To double and halve a number or quantity.
- Addition and subtraction.

Ways to help your child

Listen to your child read and ask them about what they have read. We encourage children to reread texts to help develop fluency and understanding.

Help them to complete the 4 home learning jobs. Please let us know if you are having any

Your interest in school work will show your child we want to work together for their benefit.

Tornedale Infant School

Information about Year 1 Autumn Term 2 2017

Topic
